210 g/m²

- Moisture wicking MASCODRY® fabric
- Flat lock seams to avoid irritation to the body
- Zip at the neck
- Size: S-4XL

MASCODRY®

When working hard all day long your body will naturally sweat. With a MASCODRY® garment you can be assured of all day long comfort as the fabric works to remove and dispel moisture from the body.

Sweat is dispelled by the body through the skin. Fabric construction wicks moisture away from the body and disperses it quickly out through a large surface area of the garment

Mascodry® is a registered trademark of Mascot International A/S

Kevlar®

Only by DuPont

After years of experience and testing MASCOT knows exactly where certain parts of garments come under exceptional strain and exposure. Seams are triple stitched, areas reinforced but when it comes to areas of impact, MASCOT wanted to provide the best resistance it could and what better than the same material than is used in bullet proof vests! MASCOT has teamed up with DuPont™ to provide maximum impact resistance in areas such as knife pockets by using Kevlar® brand fiber.

If it needs to be light, strong, or safe, it needs to be Kevlar®

Kevlar® is a registered trademark of DuPont™

Coolmax® is a registered Trade Mark of Invista used under licence by ADVANSA

Coolmax® is the industry leader when it comes to moisture management and that is why MASCOT have teamed up with ADVANSA to provide some superior moisture wicking garments to increase comfort in your working day.

In the Logrono and Vigo products Coolmax® transforms high-quality wool garments into genuine, body climate controlling functional clothing - and gives the wearer a light and well-tempered wearing experience at all times. With Coolmax® and wool you can experience a revolutionary range of fabrics, soft like cashmere, but easy to wash and quick to dry - the new concept for contemporary clothing.

MASCOT also offer 100% Coolmax garments see page 93 of this catalogue. Look out for the Coolmax logo.
